Saving Species: Earth Day Special! Wildlife Wednesday Pre-Visit Questions

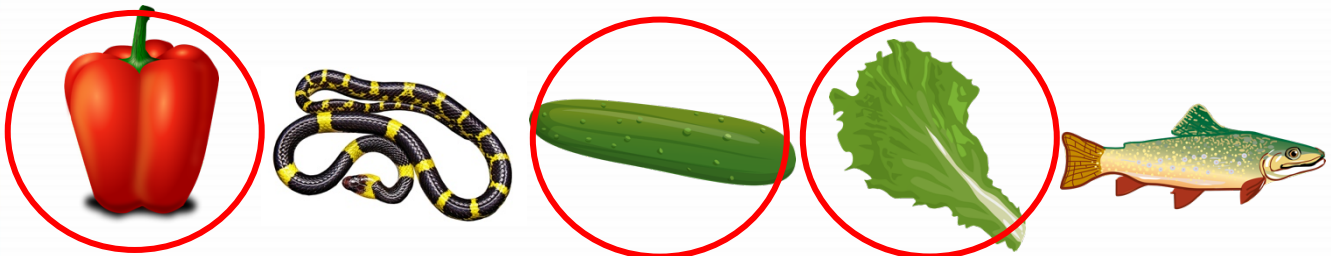

Facebook Live Event on Wednesday, April 22nd at Noon (EST)

Complete the sentences below to learn more about some special species of Georgia.

Word Bank		
dig	crawl	reptiles
tortoise	burrows	snake

There are lots of reptiles that live in Georgia. One important animal is a Gopher tortoises. These animals dig their homes underground. These burrows then become homes for lots of other animals! Indigo snakes are just one of the animals that may crawl inside one of these holes for food or to live!

Tortoises are herbivores and only eat plants. Circle the food items that a tortoise may consume.
