Saving Species: Earth Day Special! Wildlife Wednesday Reflection Questions

Facebook Live Event on Wednesday, April 22nd at Noon (EST)

How are Gopher Tortoises an important species in their ecosystem?

A Gopher Tortoise can dig burrows up to 16 feet deep. How many inches deep can they dig their burrows?

(Hint: 1 foot = 12 inches)

If a Gopher Tortoise can dig their burrow twice as long as it is deep, how long can a Gopher Tortoise burrow be?

How could Eastern Indigo Snake populations be affected by Gopher Tortoise populations?

OXBOW AT HOME

What is one species that is protected, threatened, or endangered? What are some threats that this species (or another) may face that may affect their population(s).

What are some ways that you can help protect species?

Write a note about or draw how you will save species:
