

OXBOW "I SEE, I WONDER"

Water Cycles: 4 Step Process

INSTRUCTIONS: Complete the water cycle by drawing and labeling the water cycle. Make sure to include all four steps: **Evaporation** (Water evaporates under the sun's heat), **Condensation** (Water condenses in the atmosphere to form clouds), **Precipitation** (Water is released from the clouds), and **Collection** (Water is collected and held in different areas).

Which is your favorite stage in the water cycle and why?
